## **Timberline Art Gallery to host animal totem show**

**Oakhurst, CA.** – Timberline Art Gallery, part of the popular Gallery Row in Oakhurst, announced a special art show showcasing tribal culture taking place March 4.

Many ancient cultures believe that people are guided by animal spirits. These animal totems teach, protect and help shape the lives of those to whom they are attached. The art inspired by these spiritual guides will be featured at the show.

“We will have lists of traditionally recognized animal totems and their significance, along with references to Internet sites to help you discover your own personal totem. Come experiment with a new adventure,” said Janet Morita, President of the Timberline Art Gallery.

The Animal Totems show is in place now and remains until March 4. A special reception is planned for January 14 from 1 to 4 pm.

“It will be a great chance to come and enjoy the art and meet the artists to learn how they envisioned their conception of Animal Totems,” said Morita.

Timberline Art Gallery is located at 40982 Highway 41, Oakhurst, CA. The gallery showcases art from numerous local artists, many of whom are recognized nationally and specialize in virtually every medium available.
