(New outdoor lanes have added more opportunities to throw).

The club is open for ages eight and older, seven days a week. General admission is $30 for one hour of unlimited throwing. Visitors to Yosemite National Park and Bass Lake should not miss this authentic new attraction. The collection housed at the Sierra Mono Museum curates exhibits of native fauna and flora, historical photographs, authentic and heirloom baskets, and interpretive moments of education. It is one of only a handful of museums in the state that are solely owned and operated by Native Americans.

The newly expanded and updated museum will give new reverence to the significant contributions of the Mono people of California. During the renovation project, many natural history exhibits have been on loan and proudly displayed by the Fossil Discovery Center.

Laying your head down at the end of a long day of adventuring in a quaint mountain town has never been more comfortable. Three brand-new hotels are in the process of adding 324 new rooms to the area.

Yosemite is home to countless waterfalls. The best time to see them is the spring, during snowmelt.

Peak runoff typically occurs in May or June, with some (including Yosemite Falls) often only a trickle or completely dry by August. Storms in late fall rejuvenate some, and all of them with any flow accumulate frost along their edges many nights during the winter.

This is not a complete list of Yosemite’s marvelous falls. While all but three in the following list are in Yosemite Valley, both Yosemite Valley and many other areas of the park have watery wonders, large and small.

And Yosemite doesn’t have the monopoly on waterfalls in the region. Check out our blog "5 Lesser Known Waterfalls To See In Or Near Yosemite" for more!

When the conditions are just right, it is best viewed from the eastern side of El Capitan.

Bridalveil Fall (Yosemite Valley) (620 feet)
Flows: all year, with peak flow in May.

Nevada Fall (Yosemite Valley) (594 feet)
Flows: all year, with peak in late May. Reach the top of this marvelous wonder via the Mist Trail.
